

Parryville Borough Solid Waste Payment Plans

The Borough of Parryville now offers payment plans to assist property owners with their past due solid waste accounts.

How does the payment plan work?

Property owners are required to make an initial payment of 25% of the total past due balance.

The remaining balance will be divided into a maximum of six equal monthly installments.

The monthly installments commence on the 15th of the following month or the closest business day prior to the 15th after entering into a payment plan.

What if my balance due exceeds \$1,000?

If the past due balance is over \$1,000, a twelve month payment plan is available.
